Reading A Japanese Film: Cinema In Context

Synopsis

Reading a Japanese Film, written by a pioneer of Japanese film studies in the United States, provides viewers new to Japanese cinema with the necessary tools to construct a deeper understanding of some of the most critically acclaimed and thoroughly entertaining films ever made. In her introduction, Keiko McDonald presents a historical overview and outlines a unified approach to film analysis. Sixteen readings of films currently available on DVD with English subtitles put theory into practice as she considers a wide range of work, from familiar classics by Ozu and Kurosawa to the films of a younger generation of directors.
