## Customer Reviews

I had high expectations for this book. But they weren't met. Oh no, they were surpassed! I knew this book would be nothing but the best, and I was right, I just didn't think it would be this good or that Shane and Lea would take me on such a journey. I'm pretty sure I've been excited for Shane's story since I first heard his name in Reign and I could just kiss Jessica for going back to write his story. And now I have the rest of the Mallick's stories to look forward to! The Mallick's are not your typical family. They're a family of loan sharks, each with their own personal set of skills. Shane is the enforcer of the group, when you owe his dad money, even after Shane's brothers have tried to get it out of you, you definitely want to pay before Shane gets to you. And after he's done with you and you still don't pay, well you'll really be sorry then. Lea is used to being on her own and having no one step forward to help her. Now that she's finally left her past behind she has a plan to just lay low, get a job and food on her table, and move on. But then she meets Shane. Sexy as all get out, want to

lick him from head to toe, Shane. She really shouldn't get involved with him, especially not when she learns what his real job is...but dang if she can stay away. I seriously loved all of these characters, especially Shane in all his sexiness. He had that bad boy swagger thing going on, but he also had a sweet side that was evident whenever he was around Lea. It was fun to see him go from a tough, bad boy to a man making my heart go all gooey as he's cute with his girl and worrying about her.

I freaking loved Shane and Lea's story. It was awesome in every way. Lea is a strong willed, independent, wounded woman running as fast as she can away from her horrible ex. She leaves everything to get away and I knew then I would like her. She takes a job at For a Good Time Call with Fee. This is where she meets Shane and it started from there. She accompanies Shane to his family dinner, but she wants to \$250.00 so she can pay her bills and eat before her first check comes in. I freaking loved that. When she gets there her trecherous body gives her away when it rumbles loud and she lets a first truth slip. That she isn't starving herself, but that she has no food at home. Cocky Shane softens towards Lea and we see the real Shane. He might not be hearts and flowers, but he does care. He piles her plate first telling her that she will eat because she knows she hasn't eaten. Shane's family is a riot. I really adored them all. I freaking **ADORED** them! A family of loan sharks who are lethal in that department, but really a big loving family that look out for one another. I can't wait for all the brothers stories (especially Eli and Ryan)! Is it weird to say I want to know Helen and Charlie's story too (shane's parents). Helen just seems like the backbone of the family and I bet there story would be epic. Anyways, Shane and Lea tentative relationship starts off. They have mad chemistry, but like Shane I wanted Lea to open up to him just a little bit. Give us something. Towards the end I understand why she was so closed off. Her story is so heartbreaking. We think we know why she is running, but we really don't know and it was sad, but in the same as the reader I was so proud of Lea. She got out, she started over, and in the end she saved herself.
