Dragon Romance Box Set: Alien Warrior Complete Series (Books 1 - 6): Dragon Riders Of Markham

Synopsis

The Complete Series (Books 1 - 6) Shana Moore is a girl that knows her own mind and has no problem speaking it. She is considered a ball buster and being a bouncer for a club has afforded her the opportunity to relieve herself of some of her frustrations. She wakes one morning in a field surrounded by weird colored flowers and a man who looks like Adonis sporting a rock hard body, chiseled abs, and brings with him sexual longings. She finds out his name is Braden and that theyâ™re not exactly on earth anymore. This is the planet of Markham. At first she does not believe, but when she looks around and finds herself surrounded by dragons (or dragos as they call them) that spew blue fire, she realizes that sheâ™s not home anymore. Braden doesnâ™t know where she came from and she has no idea how she got here. How will she find her way back? The society seems to be that of renaissance era earthâ | What will she have to do to survive in a male dominated society? The only upsideâ | people of Markham seem to be very primitive in their sexual knowledge and Shana canâ™t wait to blow Bradenâ™s mind with sexual experiences beyond his wildest imaginations. This book contains mature themes and language, only suitable for adults over the age of 18!

Good SciFi romance stories. If you love to read steamy alien romance books then this boxset is for you. Itâ™s give yourself some pleasure of reading this unique SciFi story with lots of warm sexual scenes that will drive your thoughts. I think the stratagem was absolutely attractive, relating alien romance and did a good job mounting the storyline and tying the characters. As well, as usual, the scenes were also brightly described.

Are you up for some steamy alien romance? Then this set is absolutely recommended for you. Give yourself some pleasure of reading this unique SciFi story with lots of hot sexual scenes that will blow your imagination. This complete set of Alien Warrior: Dragon Riders of Markham has a very interesting plot and setting which you will definitely love. The characters are not like those typical ones, so it's really a breather if you're bored reading those cliché love stories. This consists of six parts of the series so you will have a lot of fun time enjoying this read. This is a great addition in your kindle library. You can read this whenever you're bored or have nothing to do. It's best to read it during night near the fireplace to enhance the mood.

This is really a very interesting science fiction between human and alien that involving love and lust. It might seems lengthy in a box-set of 6 books, but when I started to read, I just can't stop myself reading from cover to cover !

This book was wonderfully well written. It was very short, although I'm really only complaining because I wish it would have been so much longer. It had vivid, relatable characters, an amazing adventure, a beautiful love story, sexy leading men, scorching hot scenes, and mind boggling landscape descriptions that were so creatively done, it was so realistically brought to life with clever wording, it almost felt like I was there in real life. I was instantly engaged with the story, and for me if that doesn't happen immediately, I can't finish reading the book; and along with this story and characters that it made it so it was so very hard to set down. I definitely didn't want to stop reading for a moment!! This Author is one to watch for and I will be willing to buy any other series that are this well written, that she offers in the future!

ok. so I just finished Alien Warrior. the book was kinda weird, but good. the heroine was a bad #%& and she didn't take no shorts. she went into a whole new world and changed history, both literally and sexually. it was a good read, but I really think that Falla was really her mother Stella from earth.

good reading. check it out!!!! I would love to see what happens to Braden while on earth and solve the mystery of Falla
