Customer Reviews

It is frustrating. The first part was interesting and the second part, this one, a little less so but it still kept my attention. However, this should be one book as it is one story that is being feed to the readers in parts, less than 1 month apart. The first part was 37 pages and this one was 39 pages.

Despite the author writing erotica and the giving the warning of "This book contains mature themes and language, only suitable for ages 18+!" the main characters have not yet had sex and am not sure in what part they will, if at all. Also I am not sure how many parts there are and when they will be released because the author does not give out the information. What I know is how this book ended, just stopping, this story cannot be finished. The whole thing is frustrating and I am finished reading this story because I am not reading any more parts of the book.
