Customer Reviews

Cassie Lockwood's journey is over. She has found the ranch her father had told her so much about. He had bought the ranch in partnership with his best friend Ivar Engstrom. Adam's widow Mavis welcomed her with open arms but her grown sons have reservations about the partnership of their father and Cassie's father. Mavis and Ivar had never mentioned anything about owning only half of

the ranch and their children. Ransom has his concerns with the fact that this important piece of information was never mentioned until the day Cassie and her friends show up to claim her inheritance which was half of the Bar E Ranch. Mavis had not only withheld the fact that Adam was a partner in the ranch but that she had also been in love with Adam Lockwood before she married their father. She has not revealed the later to anyone. Has Cassie come all this way just leave in order to preserve the peace within the Engstrom family? They are the true definition of family and love and she does not want to cause them problems. Book two was so much better than book one. I felt more connected with the characters and story. The character Chief has become Cassie's shadow and protector even more so since the death of Adam Lockwood. Micah is the animal handler that came along with them in hopes of finding a place to plant his feet. Then there is Runs Like A Deer the Indian woman they found injured on their journey and she has made them her family. All of these people have become a family unit. Mavis Engstrom is the glue that holds them all together including the addition of Cassie's little family. Her young daughter Gretchen is a mini Mavis in the making. Mavis's son Lucas gets ahead of himself most of the time though it is usually with the best of intentions.

Cassie Lockwood returns in book two of the Wild West Wind series from author Lauraine Snelling. Cassie had traveled in the Wild West show that her father co-owned. With her shooting and riding skills, she became a major attraction for the show. After her father died, ticket sales declined and the show was cancelled. Before the bank investors could repossess her wagon and horse, she discovered a land deed belonging to her father. It seems he owned some land in North Dakota. Cassie packs her belongings and heads to the land of her father's dreams. Whispers in the Wind continues Cassie's journey to North Dakota, where she finally arrives at the hidden valley, only to discover that someone else has already built a ranch on the land. The family includes Mavis Engstrom and her three children, who may now lose their home because Cassie is the rightful land owner. Cassie learns a startling discovery that Mavis's husband had co-owned the land with her father. Now she must try and share the land with these strangers. Mavis's oldest son, Ransom, doesn't trust Cassie. Her daughter, Gretchen, is more accepting of Cassie as she has always wanted an older sister. The youngest son, Lucas, more than accepts Cassie, as he has fallen madly in love with her. Fulfilling her father's dream of building a ranch and raising horses, might be harder than what Cassie has ever dreamed of, but with her faith and determination she plans on building a home on Bar E Ranch. I loved the first book in the series,
