## Customer Reviews

I finally finished all five books in the series and I have to say it was pretty darn good. The story begins with the heroine having fun with her friends at a bar. They have a game of Truth or Dare. They spot the H by himself and tells the heroine she has to reach him while blindfolded and kiss him. She manages to do just that. The kiss does all sorts of stuff to both her and the hero. It was instant love for the hero. The heroine, however, is engaged. The h winds up working for the H. He

recognizes her as the blindfolded girl, but since she was blindfolded and he took off soon afterward the kiss, she has no clue he was the one she kissed at the bar. I love that the H whom was a no commitment player suddenly finds himself totally into the h despite her engaged status. His best friend's advice to him was to eliminate the competition. He does just that during the course of his pursuit of the heroine in a very effective way. The H was very sweet and completely devoted to the heroine once he met her at the bar. He was also such a romantic. He called her his tiger. She was it for him. I liked the h but not as much as the H. She stayed engaged to the douche until the H catches him cheating on her. I thought the h should have been more intelligent after the kiss and would have broken the engagement sooner. I did not like that she had to wait to see him cheating on her before she left him. She should have realized that she was falling love with her boss way before then. There is an OW that keeps trying to come between the two of them. She was a mistake from his high school days. The h gets even with her and her gal pals right before their wedding. I thought that stunt was pretty hilarious.
